Education

- 2019/2022 high school, Lycée Arago, Perpignan, France.
- 2022 A-levels grade B, Lycée Arago, Perpignan, France.
- 2022/2024 class preparing students for nationwide competitive exams in science, Lycée Arago, Perpignan, France.
- 2024/2025 first year civil engineering, Polytech, Marseille, France.

Assets

- Rigorous
- Organized
- Conscientious
- Motivated

Languages

Italian	Native language
Arabic	Native language
French	Mastered
Spanish	Intermediate
English	Intermediate

Hobbies

Work in a hairdressing salon practising cutting and styling techniques, welcoming and advising customers

Plays a 5-a-side football, developing team spirit and communication skills in competitive situation

Passionate about rap and RnB, enriching a strong musical culture and an openness to a variety of styles

Computer skills

Computer software/ Pix
Pack Word / Office / Autocad
Social networks /Canva

Adam LEBGHAM

Internship/ stage

Hardworking and trilingual student in engineering school, I am motivated by the idea of contributing my skills based on my various experiences. I am in my third year of civil engineering, and I would be very interested to find a job in this field. Determined, willing and quickly autonomous, I will do my utmost to carry out the tasks entrusted to me efficiently.

Experience

- 2023 Temping (Proman), 1 month, *Perpignan*
Assisted builders
Supported builders in their construction tasks.
- 2023 GE AGRI SAISON 66, 3 month, *Perpignan*
Agricultural worker
Packed and harvested the vegetables, then sorted and checked the quality of the produce.
- 2022 - 2024 Campsite Cap Fun, 3 month, *Argelès-sur-Mer*
Multi-skilled agent

Maintenance :
 - maintained sanitary, barbecues, play areas, waterpoints, mobilhomes,
 - cleaned beaches, aquatic areas, and rental properties early season

Green areas :
 - maintained green areas, flowering plants and work equipment
 - trimmed hedges and shrubs, mowed lawns

Household/ cleaning :
 - cleaned toilets, communal areas (bar, terrace, reception, etc.) and rental properties (winter removal at the start of the season)
 - worked in compliance with health and safety standards with situation report
 - winterised the campsite at the end of the season (mobility brought in, equipment stored)

Relevant courses, academics projets

During the school year, I had the opportunity to acquire skills in the field of civil engineering and architecture.

- Learned fundamental concepts such as structural design, construction materials, principles of durability and materials efficiency
- Learnt to draw architect's precise, detailed plans using autocad in particular
- Manipulated thanks to practicals works, produced several types of concrete, learned to calculate the basics of civil engineering
- group projects in which buildings are planned, including all the architectural drawings and calculations of materials and costs.

Skills

- exemplary interpersonal communication and customer relations
- proficient in managing incoming and outgoing calls
- proficient in packaging, sorting and checking products
- design and planning, using technical tools and design software adhering budgets and timelines
- flexibility and adaptability to differens situation and professional environments
- able to complie with hygiene rules and safety instructions
